To The Patrons of The Climax.

As announced by my brother, Mr. E. C. Walton, in the last issue of the Climax, a change has taken place in the editorial management of this paper. That announcement was had enough, but the news is yet to come. The man who is to take the place of my brother is a good, trying to fill his place in your midst and I fear there is no help for you. An unbidden guest is rarely regarded with patience and I fear that I will prove no exception, but I am going to try my best to deserve your good will and patronage and try, try again if I fail at first to succeed.

I do not feel that I come among you as a stranger. The greater part of my life has been spent in counties adjoining or contiguous to the good county of Madison, while engaged in editing papers at Stanford and Lexington. For fourteen years I have been on daily papers, the work on which is very different and decidedly more strenuous than on a paper of less frequent issue, but I hope to soon adapt myself to the new order of things, which were so long the old with me, and give you a paper worthy of your patronage and to which you can point with pride, as the political platform usually recite.

Born, reared and grounded in the Democratic faith, I could not make the Climax otherwise than it has always been, a faithful exponent of the cause of the people, and I shall at all times and on all occasions defend the principles of my party. Years have, however, taught the wisdom of appeal to intelligence instead of to prejudice, and I am sure that there will be no rough and tumble political fights between our friend, Ed Smith, of the Pantagraph, and ourselves as characterized our enthusiastic younger days, before the hand of time had sprinkled snow on our gradually disappearing locks.

If I succeed in making the Climax the newsy and pecuniary success I hope to do, I shall move my family here and live and die with you. It is with me to do

the former and you the latter, and we shall see what we shall see. Meantime I shall reduce promises to performances and beg your indulgence till I get the lay of the land and find the best facilities for getting all the local news, which will be the first consideration.

My local contemporaries will always find me courteous and neighborly and if unpleasantness should arise they will have to start the rough house, for I am as mild a mannered man as ever scuttled a ship or cut a throat.

W. P. WALTON.

Camden For Governor.

We do not know whether it is agreeable or not to him, but the suggestion of Mr. Johnson N. Camden, of Woodford, for Governor strikes us as peculiarly appropriate. A man of fine executive ability, a real specimen of Kentucky's best citizenship and a Democrat who has done much for his party with his time and his money, the party would honor itself in honoring him with the office.

Besides Kentucky owes him a debt of gratitude for his splendid conduct of the last Presidential campaign in the State, which gave President Wilson so great a plurality. The writer was with him at headquarters in Louisville, as press agent, and knows how his whole soul was wrapped up in the success of Democracy. He gave his time and his service unstintingly, always with an eye single to obtaining the best results, and was himself the largest contributor to the campaign fund.

Mr. Camden is a progressive man, foremost in every effort for the improvement of conditions and thoroughly impressed with the idea that farming is the grandest calling of man. Tomorrow he will give a barbecue to which every Kentucky farmer is invited, where topics especially interesting to him will be discussed and burgoo and barbecued meats will be dispensed without stint and without pay.

The Bull Moosers, Republicans and sore-head Democrats got together Saturday at Lexington and nominated a full ticket for county offices. They were emboldened to this action by their success four years ago, but things have changed since then and no one now doubts the success of the Democratic ticket, headed by former County Judge Frank A. Bullock. The so-called fusionists have not made good and they have no subsequent judge now to issue injunctions and threaten indictments by special grand juries. Their platform is sort of a "catch 'em a' comin' and a gwine" concern and is as long as the moral law, promises being made that could not be filled if they would, or would not if they could.

Miss Effie Land has returned to her home in Lexington after an extended visit to Miss Elizabeth Turley.

Mr. Marshall Collins left Monday for Philadelphia, after spending several weeks with his parents here.

Mrs. Mary Smith, of Cleveland, is visiting her daughter, Mrs. Ballard H. Luxon, on W. Main street.

Misses Annie Mae and Ellen Walker entertained Monday evening with an informal dance in honor of Miss Harriett McCrory, the house guest of Miss Elizabeth Shackelford.

ARMY officials complain of the falling off in enlistments. The reason for it is obvious. Not many young men who expect to become anything are willing to give up seven of the best years of their life with no promotion higher than or derly sergeant. The term of enlistment has been increased from three to seven years. Besides, too, few young men of spirit want to submit to the slave life and be bossed around by whipper snappers with shoulder straps, who cut such fantastic tricks as to make the angels weep.

THERE is one inequality that P. M. General Burleson should cut out of the parcels post. He has increased the limit to 20 pounds and reduced the postage, but continues to let books be prohibited from being sent by it, which are still subject to the former high price. It is a tax on knowledge and a discrimination inexcusable. Besides, too, if the book weighs over four pounds it won't be carried at any price.

ACCORDING to Col. Goethals, chief engineer, the first ship will pass through the Panama Canal in October, when the greatest undertaking of modern times will be accomplished. It has cost a mint of money, but the end will justify the outlay and mayhap, too, the means that President Roosevelt adopted to secure the route, but we doubt it.

EDITOR KNOTT, of the Louisville Post, is still showing in long-drawn out and very prosy editorials how dense is his ignorance on the currency question. Like Vanderbilt, we think it was said of an egoistic son-in-law, Knott can be more kinds of a d--n fool than any man who ever happened to have a newspaper.

We buy all kinds of country produce, pay the highest market price. Give us a call. Covington Thorpe Co. 57-1f.

is anticipated. The Rexall Co. is one of the largest, if not the largest, manufacturers of drugs in the world. They are noted for their liberality to their agencies the world over. At the time of the recent flood in Ohio, when so much property was destroyed and so much suffering in consequence, this company came promptly forward with a donation of many thousands of dollars, with instruction to "call for more money if you need it." This is but one instance; we could name others, for they always do their part.

Judge Greenleaf's Court Busy.

Judge Greenleaf's court has been the scene of considerable activity during the past few days. One of those who caught a fine asked that the Climax withhold his name this time, and having agreed to do so, we think it but just to say nothing of those fined at the same sitting. However, we will not let the next bunch off so easily.

Negro Drops Dead On Street.

Jason Hugely, a negro aged 43, dropped dead of heart trouble on the street here yesterday afternoon. He was standing at the corner of First and Irvine talking to some friends, when all of a sudden he reeled and fell. The coroner's jury returned a verdict that death was due to heart trouble. Hugely is survived by his wife. He was a hard working darkey and had many white friends, who liked him because of his good deportment and industry. He was complaining when he came from his home, but his wife, with whom he talked, did not deem his condition serious.

The One Wet Spot.

When the ex-editor of the Climax made a trip to Orlando, Fla., some ten days ago he did not do so for the purpose of hunting the wet spots on the map, but he was impressed, notwithstanding, with the fact that the local optimists and prohibitionists are making deep inroads on the liquor traffic. For instance, Jacksonville, Fla., is the only place on the route where John Barleycorn is legally sold on the trip of over 900 miles. Just think, through a good portion of Kentucky, across the States Tennessee and Georgia and 200 miles South of the Florida and Georgia line only one town in which a thirsty fellow can "whet his whistle." Truly the temperance people have much to be thankful for, and their work is little short of marvelous. And the end is not yet in sight.

Death of Prominent Stanford Man.

Mr. George D. Hopper, one of Stanford's best men and for years a prominent business man there, died Sunday night of paralysis, aged 65. He suffered two strokes nearly six years ago and had since been an invalid. For many years he had been prominent in Masonic and church work. He is survived by his wife, who is a half sister of Mr. John A. Higgins, of this city, and five children, all grown. His burial will take place in Stanford this afternoon after funeral services at his late home by Dr. Bruce, of the Presbyterian church.

High Priced Features.

The Sparks Shows, which are dated for Richmond Saturday, Sept. 6th and which will be fully billed through the county during the coming week, are coming, heralded by the most favorable newspaper comments. The exhibition will include many exceptional features, among which are Capt. Weyley's educated seals and sea lions; Prof. Reed's herd of base ball-playing elephants; the "Great Reymard," in a sensational death-ride, blindfolded on a motorcycle; a complete collection of wild animals and a congress of the best known athletic talent. The show is spoken of as high-class, moral and free from all gambling and short-change methods.
